### ABOUT THIS PUBLICATION

*South Australian Economic Indicators* is a monthly publication which contains the latest available data at the time of preparation for a range of statistical series that have been identified as indicators of economic activity in this State. In a number of cases the figures presented are preliminary and subject to revision in subsequent issues.

### CHANGES IN THIS ISSUE

Due to the suspension of trend series data for retail turnover, tables 1, 2 and 9 now show seasonally adjusted data. For more information see *Retail Trade Australia, August 2000* (Cat. no. 8501.0).

### DATA NOTE

ABS statistical series are being impacted to varying degrees as a result of The New Tax System, introduced in Australia from 1 July 2000. The New Tax System includes the removal of Wholesale Sales Tax and the introduction of a Goods and Service Tax (GST), and as a result, a number of ABS data series will reflect significant immediate and subsequent impacts. In future issues, implications of The New Tax System on series will be footnoted at the bottom of tables. For more information please see the Notes section in relevant publications.

### INFORMATION

All data are original, unless otherwise stated. More detailed information on each series, including explanatory and technical notes, can be obtained from other Australian Bureau of Statistics publications or alternative data sources. To assist those seeking further information, the series presented in the statistical and state summaries provides a reference to the Publication Source Index which is at the end of this publication.
